

630 UM

MILITARY & PROFESSIONAL BOAT

OUTBOARD ENGINE

SILLINGER RANGE

FOLDABLE : Designed to withstand extreme environments and intensive use, foldable boats offer the same level of quality and finish as Sillinger any boats. Intended primarily for military and professional use, these multi-mission boats are suitable for commando infiltration/exfiltration and rescue operations. Their resistance to extreme conditions, their ease of storage and deployment make them easy to deploy from a vehicle, a ship, an aircraft, etc.

MISSIONS

- Search & Rescue / Emergency
- Commandos
- Port Service
- State action at sea
- Tender
- Diving

CERTIFICATIONS & PARTNERSHIPS

TECHNICAL SPECIFICATIONS

Total length	6,34 m
Total width	2,55 m
Internal length	4,50 m
Internal width	1,33 m
Float diameter	0,60 m
Empty weight	237 kg
Max. load (excl. motor)	2200 kg

Hypalon / Neoprene fabric	1670 decitex label Orca
Number of compartments	5
Recommended power	90 CV
Maximum power	1 x 140 CV ou 2 x 60 CV
Colour of the floats	Black and grey
Capacity	20 passengers
Dim. Rolled without floor	1,85 x 0,85 x 0,4 m

FLOAT

Made of CSM (Hypalon / Neoprene) fabric with the ORCA label, SILLINGER has been applying its unique double cold gluing technology in France for over 60 years. This technology, applied under climatic control in our French workshop, integrates an internal reinforcement band to ensure a perfect edge seal and increase the operational life of the boats. The CSM (Hypalon) covering the outer surface is an elastomer which is highly resistant to heat, abrasion and hydrocarbons, unlike coated fabrics made of plastomer (P.V.C.). The assembly of Sillinger floats is guaranteed for 5 years in professional use.

STANDARD EQUIPMENT

- Float Hypalon / Neoprene 1100 decitex label Orca
- Storage pocket
- Reinforced stainless steel front handle
- 2 Peripheral handrails on bolt rope
- Peripheral anti-drag strip 160 mm
- Marine plywood + polyurethane transom
- 2 Rear towing rings
- 2 Engine protection plates
- Rubber grounding strip under keel
- Marine plywood anti-slip floor
- Hull bag + transport floor bag
- Float repair kit
- User manual + Inflator
- Inflatable keel
- Meta-Ops rail + fixing strap
- 5 D7 inflation valves
- 8 Rubber Handles
- 4 Automatic bailers
- 2 Double paddle holders + 4 composite paddles

OPTIONS

- + Reinforced wrist straps
- + Wipers colour: Red, Orange, Yellow...
- + A6 pressure relief valves
- + Foot-strap on floor
- + Specific seat reinforcement
- + Foot-strap under float
- + D ring for fixing to float
- + Carrying handle on inside of cone
- + XL storage pocket
- + Towing V
- + Specific marking on float
- + Mooring kit
- + Flexible tank
- + Protective cover

FLOOR & META-OPS RAILS

The rigid wooden and aluminium floors are equipped with 3 META-OPS rails (aviation type) allowing the stowage of equipment or the tank unit, thanks to the anchoring pins and straps supplied.

CUSTOMIZATION

Customize your boat according to your specific needs. With a know-how acquired since 1962, our teams will advise you according to the specificities of your mission.
